

SENIORS

"I'm finally fulfilling the one ambition I've had since freshman year — getting out of here!"

"Everyone says how easy senior year is and how much fun it is. Well, it is nothing of the sort."

"High school has made me see the apathy in myself and others."

"I value my years at NTW because I had nothing better to do from 1969-1973."

"I've had four decent teachers, a lot of bad ones; met a very few good people, and a lot of not-so-good ones. Basically, I have learned very, very little and wasted an extreme amount of time."

"If they told me I had to go to high school again I would run away and become a Brazillian or something."

"These four years have been the most rewarding of my life."
